

Md. Tamim Hasan

Software Quality Assurance (SQA) Engineer

Dhaka, Bangladesh | +8801785602510 | tamimhasanshad333@gmail.com

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Professional Summary

QA Engineer with hands-on experience testing SaaS platforms (HRMS, ERP, POS) and AI-powered products, including a government data management system. Skilled in manual testing, API testing, performance testing, and test automation, with a track record of documenting 100+ defects with root cause analysis across Agile sprints. Proficient in Postman, JMeter, k6, Selenium, and Playwright, with working knowledge of Python and JavaScript for automation scripting. Seeking to bring strong test case design and defect management skills to a growing QA team.

Technical Skills

- **Testing Types:** Manual Testing, API Testing, Performance Testing, Automation Testing, Regression Testing, Integration Testing, Unit Testing, Mobile Testing (iOS/Android)
- **Tools:** Postman, Newman, JMeter, Locust, Selenium, Playwright, Jira, ClickUp, GitHub, VS Code
- **Programming Languages:** Python, JavaScript, Java, HTML, CSS, SQL (MySQL)
- **Methodologies:** SDLC, STLC, Agile, Scrum, Test Case Design, Bug Reporting, CI/CD Integration

Work Experience

Junior SQA Engineer

July 2026 – Present

AKIJ iBOS, Dhaka (previously SQA Intern, May – July 2026)

- Promoted from SQA Intern to Junior SQA Engineer for consistent performance and ownership shown during internship.
- Test SaaS platforms (PeopleDesk HRMS, POS Managerium, NextJobz AI Portal) and the government project RDMS (Repatriation Data Management System, Ministry of Home Affairs).
- Design and execute test cases across manual, API, performance, and mobile testing; document 100+ bugs with root cause analysis.
- Conduct API testing with Postman, build performance scripts in JMeter and k6, and execute unit, integration, and regression testing.
- Prepare test documentation (test plans, test cases, checklists); collaborate with developers in Scrum standups; track and manage defects in Jira through resolution.

Projects

- **PeopleDesk (HRMS):** Designed test cases and built Playwright automation scripts for an HR management platform. [[GitHub Repo](#)]
- **POS Managerium:** Validated a multi-store retail system through functional and regression testing.
- **NextJobz AI Portal:** Performed QA testing for an AI-powered job portal, ensuring reliability and scalability.
- **RDMS (Government Project):** Tested the Repatriation Data Management System under the Ministry of Home Affairs.
- **BLC (Manual Testing Case Repository):** Authored test cases, test scenarios, and structured bug reports for a university platform. [[GitHub Repo](#)]
- **PetsVet Website:** Built a responsive UI with HTML and CSS and authored full QA documentation, including test cases and bug reports.

Training

Software Quality Assurance (SQA) Training — Hands-on training in manual testing, test case design, regression testing, bug reporting, API testing with Postman, and automation fundamentals with Selenium and Playwright.

Education

B.Sc. in Computer Science and Engineering

2022 – 2026

Daffodil International University, Dhaka

Higher Secondary Certificate (HSC)

2021

Shahid Mamun Mahmud Police Line School and College, Rajshahi
